6 WHISKY-The price declined to 13%c,. Wednesday, and the market/has been steady at this rate each subsequent day, closing

firm. MONETARY AND COMMERCIAL.

Financial Affairs. In the Banking-quarter yesterday there were no new features, the week opening very quietly for a double day, and the demand for Money less than was anticipated.

Monetary matters continued close, with many more offerings than the Bankers can or will meet. They still discount very carefully, and usually reject all the Paper, however strong, not offered by their customers. In the street, not much Paper is seen, but, when done, it goes at high rates-2@21/2 per cent, per month. We hear of occasional transactions of very good Paper at 3 per cent, per month.

The stock of Currency appears to be on the ecrease, though some houses report an augmented supply. The city balances generally are materially less than they were a week ego, though the receipts of Currency have mproved within a few days.

Boston and New-York Exchange remains tolerably steady, no alteration having occurred yesterday from Saturday. The supply was rather in excess of the demand, and few dealers were paying over 1/2 on either point, Baltimore and Philadelphia Exchange was heavy at our quotations, with little disposition to buy any amount.

Gold was firm at 114 premium; one or

two houses refusing to sell better than 11/2. The local request is light, but considerable orders are expected from the Ohio and Kentucky Banks. In New Orleans Sight Exchange nothing of consequence is doing, because there is very little here. The drawing rate is %@1-

par, and the buying par@% premium. Uncurrent Money was without alteration, with a fair demand for Western Bank-notes. Our rates for Exchange and Coin last evening were:

1 prem. 1 prem. par, 160/2 dis. Moll prem. 12 prem. Philadelphia my prem. The Banking-houses and the Merchants' Exchange will be closed to-day, and business

generally suspended. Many of our wholesale merchants can close their establishments without much inconvenience, as every thing is dull for the season in the Commercia circles. Flour was in limited demand yesterday at

Saturday's prices; superfine ruling at \$4 to \$4 10, and extra at \$4 25 to \$5 25. Whisky and Groceries were unchanged. Corn, Oats, Rye and prime Barley were firm, and Wheat advanced 5c. per bushel. Mess Pork was in fair demand at \$14 50, but was held 25 to 50c. higher, and 60 barrels sold at \$15. Bulk and green Hams were in demand with considerable transactions, and Lard, in tierces, sold freely at 9c.

Hogs opened yesterday moraing with a good demand at full rates, but the demand fell off as the day advanced, though the market closed firm at \$5 50 for good workers. The sales reached about 1,500 and the receipts 6,000 bead,

The following are the Imports and Exports during the forty-eight hours suding yesterday noon:

Yesterday's Louisville Courier remarks egarding Saturday: The Provision market remains quiet, with

The Provision market remains quiet, with no change of importance to note in prices. There is a small inquiry for Meas Pork, but the sales were limited to 135 briz. at \$15.50, cash, which is the lowest price that any can be purchased for in this city. Holders

act prefer holding, as the prospects for an drance in prices are very favorable. In Bacon there is no change. The demand is Bacon there is no change. The demand is moderate, which is promptly met at 8, 10 and 120 for Shoulders, rib, and clear Sides. In large lots they might be purchased at a small decline on the above quotations. There is nothing doing in green or bulk Meats, or Lard. Hogs are quiet, with none offering, Several thousand head of heavy Hogs could be sold at \$5.25 met, cash.

The following is a comparative statement of the imports of foreign Dry Goods at the port of New York, for the past week and since January 1:

For the West. 1858. 1859 Our Saturday's New York papers thus re-

fer to Friday's Stock Market: The secession news from South Carolina it was generally expected, would have a damaging effect upon the Stock Market, and under this impression there was some engor-ness shown at the opening of business this morning to make quick sales. The consequence was a decline, ranging from 1 to 1 1/2 per cent. for the leading stocks; but, someper cent, for the leading stocks; but, some-what to the surprise of a majority of the op-erators, a firm tone developed itself at these points, and before the session closed the market had a hardening tendency again. There were a great many orders at the Board, and some of the large purchases were stated to be on foreign account. New York Central sold down to 74%, but was strong at the quotation, and finally closed in demand at 74%.

14%. The dealings in Erie were large, and at 31 to 311/4 the cash Stock was absorbed as fast as offered. The orders for this Stock have been mostly on foreign account—to which 2,000 shares have been transferred during the week, including 1,000 shares to Paris to-day. The Western shares fell off in about the same ratio as other leading stocks, but in every instance were steady at the close. There were no signs of alarm in the operations, and it is generally admitted that he effect of the South Carolina movement has been pretty much discounted. State Stocks and Railway Ronds were steady at a mederate decline. Between the sessions the market was firmer, and at the Second loard a sharp rally took place with active and vigorous buying.

Saturday's Tribune observes respecting Friday's Monetary matters:

The supply of Paper in the Discount-houses is quite small, and holders are enabled to make sales occasionally at better rates. The business, however, is quite light. Lead-ing names go at 12@15 per cent., with a few transactions in choice signatures at 10@11 per cent. for sixty-day acceptances. Some very prominent names are held at 7@8 per cent. The supply of Money is superabundant on call, in certain quarters, at 6@7 per cent. Still lower rates, it is anticipated, will rate in a short time.

rule in a short time.

The Foreign Bill market has improved The Foreign Bill market has improved about 1/2 per cent, both for Sterling and Francs, under the arrivals of Gold from Enrope, a portion of which is for investment in Bills. The business, however, is not yet large at the advance. Sterling is 100@104 for fair to leading Sterling, and 104@1041/2 for Bankers' signatures. Francs are 5.50 @5.40. This improvement, if it continues, will materially assist the movement of Produce.
